

eComBot Support Policies

Returns and Replacements

Most electronics are eligible for replacement within 7 days of delivery when the wrong item was delivered, the product is dead on arrival, or a verified hardware defect is found. Opened electronics are not eligible for return only because the customer changed their mind.

Refund Processing

Approved refunds are initiated within 2 business days after return validation. Bank and card processing can take 5 to 7 additional business days after the refund is initiated.

eComBot Support Policies

Warranty Claims

To claim warranty, the customer should keep the invoice and contact support with the order ID, product name, purchase date, and issue description. Support should guide the customer to the relevant brand service process. Warranty generally covers manufacturing defects and does not cover physical damage, liquid damage, normal wear, or unauthorized repairs.

Data Privacy

Support should ask only for the minimum details needed to solve the case. Do not ask for card numbers, OTPs, passwords, or full payment credentials.
